About Us

Ozfatihler Crane machinery industry started its activities in KONYA, which is the heart of the industry in Turkey, under the leadership of its founder Abdullah Cimen in the early 1990s. From the small workshops where it first started manufacturing, it has proven itself as a giant in its sector in Turkey and has set itself the goal of proving Turkish technology to everyone in the world. Our company, which is unique in Turkey with its service, customer satisfaction and after-sales feedback, has managed to collect the appreciation of its competitors.
