Hakkımızda

Our company was founded in 1965 by Demirci Hacı Mehmet ADAM and began production of agricultural tools. Between 1970 and 1982, production continued under Bekir ADAM (DEMIRCIOĞLU) with the manufacturing of grain drills. Since 1982, our operations have been continuing under my (Mehmet DEMIRCIOĞLU) management. In 1994, our company entered the hydraulic sector, manufacturing and selling hydraulic fittings, hoses, and pneumatic materials. To provide better service, since 1994, we have been conducting direct sales through our established marketing network, allowing customers to see the product before purchasing. As a company, we strive to go above and beyond to ensure customer satisfaction.
