About Us

Founded in 2014 as a result of many years of experience and accumulated knowledge in the mold and metal goods manufacturing sectors, Canka Metal Machinery & Molds stands out with its competitive strength, quality, and expertise. Canka Metal Machinery & Molds manufactures cutting, bending, and forming molds in mold production, and also produces special-purpose hydraulic, pneumatic, and PLC-controlled machines to accelerate mass production, eliminate human labor, and produce standardized products. By continuously raising our quality standards, we aim to be a leader in the mold and machinery manufacturing industry, gaining a strong presence in both domestic and international markets while ensuring the highest level of customer satisfaction.
