About Us

As ADIL Construction Machinery Spare Parts and Tires Inc., we provide spare parts from the world's largest construction machinery manufacturers to our valued customers. With our wide product range including engines, transmissions, gears, differentials, hydraulic equipment, undercarriage components, excavator and protective groups, and consumables, we meet all spare part needs for your construction machinery. We maintain our leadership in the industry by following the constantly evolving technology without compromising on our quality and service understanding, while preserving our corporate identity.
