About Us

As Agapak, our company has been operating in the plastic industry for over 20 years. We specialize in the production of reinforced nylon bags, roll garbage bags, and standard nylon bags. With a commitment to quality, we deliver our products with great precision, always considering usage areas and customer demands. In addition to providing standard packaging solutions for the agricultural sector, we also offer tailor-made visual and functional designs to meet specific client needs. Throughout the production process, we carry out continuous quality checks and strength tests to ensure higher performance and durability. By minimizing unit costs, we are able to deliver faster, more reliable, and flawless packaging to our customers. We manufacture products for a variety of sectors, including agricultural chemicals, medical supplies, pulp
