About Us

AGOR SOFTWARE is a software company founded in early 2020. Our founding purpose was to bring a distinct craftsmanship and vision to the software industry, and we have achieved numerous successes in this area. We have quickly pioneered numerous successful social responsibility projects. We have assembled a fantastic team of experts in software and advertising. We have always committed to quality for our customers, and we have consistently delivered. We have worked for you and will continue to do so.
