Hakkımızda

Our company, established in 2001, always aimed for high quality service and production with our experienced team. By placing importance on quality, and customer satisfaction orientation, with the help of our suppliers' support, and technical equipments, our production increased its capacity constantly. Our goal is to serve as an example to our sector. This has guided our activities, and pushed us to prioritize technical equipment innovation and R&D since our establishment. We increase our product range constantly, with the focus on quality and customer satisfaction. Our principles are to respect people and community, along with environment, production, and effort. On this long and challenging path, our company aims to be the most prestigious and highest quality brand of the world in hydraulics.
