Hakkımızda

Alyans Plastik Kalıp San. Trade Ltd. Sti. In 2010, we started to serve the automotive industry in the field of plastic mold manufacturing. We continue this long and difficult journey without losing our excitement. We have laid the foundations for the production of high quality plastics and molds for various industrial fields and applications. We have placed professionalism in our business center with production in accordance with international standards in plastic mold manufacturing by advancing in line with the principles of smiling face, experience, timely delivery and quality in every mold made.
