About Us

Our journey began in 1966 in Konya with just a 10 m² space. By 2001, we expanded into a 2,000 m² workshop. Today, by following technological advancements, we export to 10 countries. Focused on innovation, product diversity, and quality, our brand continues to grow sometimes admired, sometimes imitated.

In the fast-changing textile sector, our aim is to strengthen our presence while maintaining customer satisfaction at the core of everything we do. As a trusted name in the List Of Company Konya network, we proudly showcase our achievements and growth on List Of Company. This platform supports our brand journey and connects us with industry professionals worldwide.
