About Us

Asronik Elevator is a trusted and innovative manufacturer that specializes in advanced elevator control cards. Since its establishment, the company has focused on producing safer, faster, and more efficient control systems for the elevator industry.

Its core principles high-quality products, affordable pricing, and unlimited customer satisfaction represent the foundation of Asronik's corporate identity.

By developing durable electronic components and modern control designs, Asronik has become a reliable technology partner for both domestic and international elevator companies.
