About Us

IT industry was established in 2001 with the aim of presenting the latest technology to Konya IT market with competitive price and complete support service. It aims to reach both supplier companies and corporate and individual customers with simple and direct processes and to create a continuous cost advantage. Thus, without compromising on quality, products and solutions that reflect the latest technology, the most affordable prices can be offered to the market. Badel Computer Import Export Marketing Ltd., which is next to its customers even in the most difficult projects, provides a complete, complete solution within the framework of system integration and consultancy services and the slogan of technology trust. You must be sure that you work with the best.
