Hakkımızda

Our commercial life, which started in 1975, started with the manufacture of fuel tanks, and by supporting innovative solutions in our products with technological investments, we do not carry out production with our registered brand BMD DEPO today. The main purpose in our founding philosophy is to be one of the best, not the biggest, in the field in which we operate. Our fields of activity are fuel tanks, oil tanks on the vehicle chassis and under the vehicle chassis. Our company produces in an area of 1000 m2 with experienced professional team and equipment in their own fields. Since the day it started to serve, it has proven to be the preferred company by gaining the trust of its customers with the references we have obtained.
