About Us

Bolluca whose foundation stands near 1893 has started its business life by producing yarn. The firm has put its name on the map around Turkey by developing its commercial area including the production and sale of industrial and household cleaning products. Considering the customer needs, Bolluca has widened products and service scale by starting with the sale and service of the scrubber dryer machines and sale of packaging products. Thereby Bolluca has hit the headlines with a wide range of products, a superior service mentality and the customer oriented approach. Bolluca which distributes and sales cleaning and packaging products to the corporations, hospitals, restaurants, shopping malls, factories, schools hotels and restaurants etc. around Konya, gathers the products that produced by itself under the brand of COD-EX with the final
