About Us

The importance of agriculture and agricultural products in the economy is increasing day by day, parallel to the developments in the world, Turkey has expanded its product range and turned to export-oriented new products within the rules of free market competition.

In line with the targets in the world and in our country, our group has started modern production in this field with the smart and right investments and BONİTO FAV AŞ. It has reached an important stage in marketing and sales with its name... As BONİTO FAV AŞ, it works to meet both domestic and international demands within the chain from production to sales and marketing, and takes firm steps towards the goal of providing the highest added value to our country...
