

About Us

Our company was established in 1994 in Karatay industry, in an area of 90 square meters, with cast iron. In the 2000s, Sonbirlik moved to an area of 1500 square meters in the industry and continued its production by establishing an induction furnace. It added steel casting to its structure in 2005, in response to the demand of its customers. It also switched to sawdust manufacturing in 2015.
