About Us

It was established in Konya Anatolian industry in 2010 by an experienced and young team with the vision of being a trust and solution center in the system consisting of customers, suppliers and employees with its knowledge, experience, innovative technologies in the global competitive environment.Planned and determined steps taken with the awareness of the vision it has undertaken have created a strong product range that gives confidence to our customers. We have improved our ability to produce wide ranges, quality products and services, supported by the flexibility offered by the hot forging method, machining and chipless manufacturing processes.
