Hakkımızda

DFC Machinery & Engineering DFC has been founded in 2003 to manufacture several types of machines and its parts. Presently we are still grooving up on plastic hose extruders and HVAC machinery. Our products are produced under advanced quality standards and automated production levels. There are strong experiences and Research & Development background behind our being one of the largest sales volumed manufacturers in Europe and Middle East. We claim that our products are having the least trouble and technical problems in the ventilation machinery market. Our design and engineering team is ready for any work of your needed solutions.
