Hakkımızda

Our company, which was founded in 1976 as an iron joinery workshop, started wholesale and retail trade of hardware and industrial materials in 1986. Our company, which strives to transform its experience in the market into manufacturing, prologuize to the manufacturing market under the name of DİRİM METAL A.Ş. Today, we are feeling joyful over being an innovative and sought-after company with our product variety, our dedication and determination in quality, our production planning that follows the age of technology and our principled trade understanding. We offer our products, which are an important solution in terms of both domestic and foreign markets and in terms of making life easier in the wanted quality. We look to the future with confidence with our solution-oriented, constantly developing production policy and our
