

Hakkımızda

Founded by the Demirci family in the early 1970s, DMC Logistics has gained great experience and made great contributions to the sector with its superior success and reliable service in the field of transportation. One of the biggest reasons for being a leading company in the logistics sector is the value given to the job. Every work done is completed with great precision and is carried out in a sustainable discipline.DMC Logistics, which has its own fleet of vehicles and a staff of professional drivers who are experts in their fields, transports your products to their destinations under the highest level of precision with its transparency principle, working discipline, and pre-post-process reporting service. DMC Logistics, which has a reputation in the sector with the references and relationships obtained for many years, increases the importance it
