About Us

The history of our company is very old and it was founded in 1973 by Zekai PEK. Our business life, which started with the production of rubber shoes, kept up with the change in time and started to manufacture drinking water valve seals and pipe leak seals in 1991. With the participation of his son Abdussamet PEK in 2013, with the increase in business potential and the increase in demands, by adding years of experience and experience, he is in the industrial sector in many fields such as valves, automotive, filter irrigation systems, agriculture, overhead cranes, marble machines, furnace and milling machines. provides service.
