About Us

As one of the leading automotive companies in Turkey, we have been producing heavy vehicle mudguards, bumpers, trailer equipment, shutters and more than 250 product types since 1997. This journey, which started in a small 50 m^2 workshop, continues in a total area of 24,000 m^2, 18,000 of which is closed.Using our expertise in CNC CAD/CAM in our production process, the molds of all the products we produce are designed and produced by us.We have been exporting our most competitive and best quality products to various parts of the world since 2008.
We are among the global companies by working customer-oriented with our increasing product range every day.
