Hakkımızda

Enginetr was established by Pioneer manufacturers of Turkish Industry and thanks to its product range, Enginetr gives services & solutions to companies which are automotive spare parts business. Enginetr takes position at global market with engine spare parts for passenger & light commercial vehicles and we manage our operations from Turkey. We are the best gate for high quality Turkish spare parts and we offer best prices for best quality engine spare parts to our partners. Always on the way with our crankshafts, connecting rods, engine bearings, camshaft, pistons and valves. Enginetr gives a lot of options in international packing service thanks to well educated and experienced staff. We have ability to reply our partners request in 15 minutes for express cargos. So that our partners gain times and they can give better service to their
