## Hakkımızda

ERS Elektronik Otomasyon Makine Elektrik San. Ve Tic. Ltd. Şti. was established and started its activities in 2009. Our company, customer satisfaction as its focal point, provides full support to its customers before and after sales with its strong staff. In addition to its standard models, our company can also design product-specific machines. In this way, our machines offer our customers the opportunity to work with high efficiency. Our company provides services to all its customers around the world with the machines it produces with high speed and weighing precision.
