Hakkımızda

Our company, which has been producing plastic products for 20 years, has improved its production scale and margin by manufacturing canisters in 2010. Our innovative thinking has forced us to ensure that the work we do is always of high quality and to constantly improve ourselves. We continue to invest in different products and different sectors with our brand new injection machines. As the last indicator of this, it entered the cosmetics sector in 2020 and started to produce wax cartridges. Our goal is to provide our customers with the best quality products and reach more customers in more countries.

Çağlak Plastik has been serving in the production of plastic in many areas such as high quality food, cosmetics, tahini
