### About Us

FİLTSAÑ was established in Konya in 2007 to produce filter systems for the agricultural sector. Expanding its domestic dealer network in a short time, FİLTSAÑ has succeeded in increasing its market share day by day with filter systems that provide high quality and optimum benefit for users by establishing sales points in every region of Turkey. FİLTSAÑ, which has grown rapidly in the Turkish market with its products that have won great acclaim in the country, has taken its place among the largest manufacturers of the sector. FİLTSAÑ, which ensures customer satisfaction by applying strict quality processes in production, has succeeded in carrying its brand to 21 countries in exports today. FİLTSAÑ, which constantly renews both its product range and production possibilities with the principle of 'Continuous Development', takes firm steps
