Hakkımızda

Our company was established in 1983 as Gülen Yapı Malz.San.ve Tic.Ltd.Şti. was established to serve the construction sector. Our company, while continuing its activities in this sector for years, started the production of drip irrigation pipes and fittings by making investments in 2007. SERDRİP AND GÜLEN DAMLA SULAMA are our registered trademarks. In our factory, 40.000.000 mt of drip irrigation pipes and millions of drip irrigation and sprinkler irrigation fittings are produced annually. Our technological innovation and R&D studies for the future continue. In addition, our projects regarding the new production facility are continuing, and we will continue to be with our farmers in many new products and varieties.
