Hakkımızda

HACI AZIZ TURAN He was born in 1963 in Doğanhisar Başköy Town. He completed his primary education at Başköy Primary School in 1977. In 1978, upon the work of his father, Hamit Turan, he moved to Konya, Istanbul Street. He started to work as an apprentice in the Tekfen Motor Winding investigation with great difficulties on winding, which was a popular profession at that time. He was trained in the manufacture of electric winding and welding machines at Tekfen Motor Coiling Company. Between 1981 and 1982, he established his first business under the name of Turan Bobinaj and Elektrik. In 1983, the office took a short break to do his military service. In 1986, he re-established his own small business on machinery manufacturing in a 25 m2 workshop in Demirciler Industry as Electric Motor Coiling. In 1987, manufacturers of packaging
