About Us

Our firm began its operations in the sector in 1980 by manufacturing hydraulic press. Hisan with business experience and dynamics gradually increases its quality by every passing day. As Hisan, we continue our development in the sector on our "firstly quality" principle. Our products are manufactured in accordance with the CE norms.Various types of hydraulic presses from 10 tons to 2000 tons for requirements of various industrial sectors are manufactured in our factory through our more than 35 years-long experience. We export more than 30 countries.
Our presses are used in the European countries such as Germany, the Netherlands, Sweden and Latvia. We send figures of some presses we manufacture in the attachment. Hydraulic Deep Drawing and Stamping Presses, C Type Presses and
