About Us

Our company was established in 1993 by İbrahim Şeflek and his sons in the center of Konya. In the first years of its establishment, its main field of activity was Domestic Tanker transportation, but in 2003 it started to provide International Transportation services. Today, we are doing domestic tanker transportation, flour and sugar transportation with silobas, and international goods transportation to European countries. We know that we do not see our services, which have been going on for years, as just transporting goods, but that we have a "Responsibility".
