About Us

Our company was established by İBRAHİM TÜRKÖZ in November 2017 and became operational. We are taking firm steps forward on this path, which we started with the knowledge and experience of many years in the Stainless Food Machinery Institute, and we continue without compromising the understanding of quality production. Although solutions for the production of food-based products such as Sugar, Tahini, Turkish Delight, Chocolate are our priority, all food stainless products are included in our production.
