Hakkımızda

In 1963, a sole proprietorship was established by OSMAN ZEKİ SAMANCI in a modest place to produce national pumps. Established in those years, this enterprise continued its activities by maintaining its important role in the production of machinery and equipment necessary for the technical agriculture of the country and in the agricultural development of the region.

After the second generation "AHMET NADİR AND ŞÜKRÜ SAMANCI" took office in 1988, "İKİZLER DEMİR ÇELİK DALGIÇ POMPA VE OTOM.SAN.TİC.LTD. ŞTİ." It turned into a company with its name. The company, which was transferred to the 3rd generation in the same year, took the first step in the trade of skilled steel, which is the raw material of machinery
