About Us

Karsu Hydraulic Crane has an important place among Turkey's leading crane and construction equipment manufacturers with its experience and knowledge of more than 40 years. Our company, which set out with the principle of robustness and technology, is one of the few companies in the world in producing customized cranes and platforms that can fully meet the needs of the customer, in addition to its standard products. At the same time, it has never compromised on its quality by working with parts suppliers that have brand value in the world in their field. With the truck-mounted platform and crane and high-tonnage cranes we produce, it has taken its place in the truck-mounted mobile crane market in the world.
