## About Us

Kayamak Engineering Industry and Trade Limited Company, established in 1993. We stepped into the gas sector by installation of LPG Tanks and LPG piping Installation of industrial facilities and residences. In 2004, as the leading company of the sector, we started our activities in the natural gas sector by making the first natural gas transformation in Konya in the Organized Industrial Zone. Since 2017, we continue our activities with the production of Natural Gas Pressure Reducing and Measurement Stations (PRMS) and sales of natural gas technical materials and technical support & services in our facility with 750 m2 closed area & 2.250 m2 open area.
