### Hakkımızda

In 2016, Klematis started the production of stainless boiler, spiral mixer and other equipment needed by the Food Industry, especially dough kneading machines, with its investments with the latest technology, and especially in the bread machinery sector, producing dough mixers, spiral mixers and other complementary equipment as a set. It is the only one in Turkey and the first few big producers in the world.

With its advanced technology production capability, it can make special production for its customers, strengthens its position in the international competition in its field with its high quality, has achieved sustainable production standards with its robotic production equipment, and has taken its place in the Turkish food equipment industry with its completely
