About Us

Our company Kocaşahin Demir was established in 1985 and operates in the iron, steel and sheet metal sector. Our main product ranges are; galvanized sheet.dkp,hrp and black sheets, angle brackets, npu-npi types, pipe-profiles, flat-wiping irons; and other iron and steel products. Quality in the product and honesty in sales are principles for us. We are making the utmost effort in this regard. We are proud of gaining your trust by always standing behind the products we market not only before sales but also after sales, without compromising on quality. In today's business world, where an intensely competitive environment is dominant, we take it as a principle to provide our customers with the best quality product at the most affordable price, and thus try to help our customers increase their chances of competition.
