About Us

The facility, which started its operations in Konya in 1980 with its production, has turned towards continuous investments with a great leap in its sales in 30 years since its establishment. The performance of our company started with 15 workers, and today it is carried out with more than 40 workers. Today, it has reached a capacity to evaluate foreign orders via the internet in its facilities, which started to work in a small workshop in a 1800 m² closed area in Konya Sekerciler site, but are equipped with automatic systems that it has today.
