

Hakkımızda

Our company was founded in 1993 by Cevdet GÖÇER with strong, safe and quality principles. Our company founder Cevdet GÖÇER has put Konya Nut Forging into operation to provide you with a better service with years of experience in the sector. Our goal is to take great distances in a short time and to make its name in the sector the name behind great successes. Our company, which provides service in an area of 1000 m2, continues its production with our 15 experienced personnel. First of all, our products are manufactured using the highest quality materials, with the principle of quality, in an extremely meticulous and meticulous manner. Our productions continue their satisfaction with after-sales customer support. We are currently manufacturing hot nut forging as Konya Nut Forging. We are proud of the fact that our name is
