About Us

The oldest known building of the Konya Chamber of Commerce is a two-story building located in Çıkırıkcılar, opposite the Old Tellal Market. It is known to have served in this building from the 1920s to 1953. As the number of members and the scope of service expanded, the Konya Chamber of Commerce moved to the Turkish Aeronautical Association building behind the Central Post Office building in Kayalıpark in 1954. In 1983, the Chamber built its own service building on land it purchased opposite the Metropolitan Municipality and has been operating in this building ever since. Today, the Konya Chamber of Commerce, with 70 Professional Committees and over 30,000 members, holds the title of the 6th largest chamber in Türkiye.
