Hakkımızda

We reveal the real Kurtsan quality with the superior performance of our engineers in our strong production center, which we blend with experience and technology, and present it to the whole world. Kurtsan Automotive Industry. ve Tic. Inc. was established in Konya in 1982. Kurtsan, which has been producing hubs for trucks, trailers, buses and commercial vehicles since 1982, improves its production line every year by following the developing technologies. In 2016, with an investment of more than 10.000.000.00 €, it supplies hub and hub kit products to well-known OE manufacturers and the leaders of the sub-industry sector in its new factory established on an area of 10.000 m2 in Konya 4th Organized Industrial Zone. In its new factory, there are fully automatic molding line, melting furnace,
