About Us

Makparsan is a well-established Turkish company that has been operating in the automotive aftermarket industry since 1992. Specializing in trailer and truck spare parts, Makparsan holds a significant position in the sector with its high-quality products and reliable service approach. Makparsan serves the automotive industry with a wide range of products. Its primary products include: Trailer hinge assemblies: Production and supply of hinge assemblies, which are essential components of trailers.

Dumper and axle lifting systems: Specializing in the production of these systems used in transportation vehicles.

Trailer accessories: Production and supply of various trailer accessories.
