Hakkımızda

Founded in 1950, MVD İnan machinery aims for the success of its customers and produces reliable, high quality, and highly efficient machine tools in the metal processing industry. MVD İnan produced Turkey's first press brakes and guillotine shear in 1974. Produced the first Tandem Press Brake made in Turkey and exported these machines in 1994. Finalized the CE conformity procedures for manufacturing line and marked MVD İnan machines with CE. The company that has been growing rapidly since the establishment; offers press brake, laser, shear, plasma, punch, expanded metal press machines to more than 90 countries. MVD, known as the manufacturer of reliable and robust machines, first ever produced machines are still working for more than 50 years.
