About Us

NAILSAN was founded in 1998 in Konya as Nailsan to meet the needs of the Turkish automotive industry, which was dependent on foreign imports. In the following years, it started producing glow plugs for passenger and light commercial vehicles. Nailsan continuously invests in new technologies to enhance production quality and efficiency. Its commitment to quality and customer satisfaction has made it a key supplier in the automotive sector. Nailsan's strength for progress and development comes from its experienced and trained personnel. It exports to many countries in Europe, South America, Australia, and Turkic Republics.
