About Us

This story began in 1974 in Konya... For nearly half a century, we have been by your side in your most unforgettable moments; during holidays, gatherings with friends, always with our unique fragrances. While doing this, we never compromised on our traditions, the culture we live in, and our values. Scent is an essential element of life, and we know that scent is memory, self-confidence, cleanliness, freshness, and the trigger of the most beautiful emotions. As the Lider Cologne family, while producing fragrances that have such an impact on people's lives, we prepare scents adorned with the unique colors of nature and special formulas that bring peace. With years of experience, passion for our work, and a focus on customer satisfaction, we have always prioritized these values. Our main pride is bringing the right fragrances to
