About Us

Ferman Bed started its activities in 1995 as a manufacturing company in the mattress and furniture sector under the name Nur-yat. In this period when the business sector was intense, it managed to introduce itself in the sector by reaching many customers in a short time. The company, which is on the way of institutionalization, started to produce with the registered brand Ferman in 2004.The company, which has expanded its production depending on the conditions of the day, has focused on the production of Bed-Furniture as well as the production of bed bases and has increased its production quality with its machinery with advanced technology in its sector. Ferman bed, which increases its market share day by day, exports its products to many countries. Ferman beds have started to be preferred in many national and international hotels
