Hakkımızda

NFDS Arge provides consultancy services to companies operating in the food industry with its team specialized in Food Engineering. By closely following global food trends it gives services in R&D consultancy, process consultancy, grant application consultancy, product development consultancy, analysis and testing services, cost reduction and training to companies operating in the food industry. The company also manufactures refractance window drying, infrared assisted refractance window drying (InfraRWD) and functional foods developed as a result of its own R&D activities.
