About Us

Oryem Makine Sanayi ve Ticaret Anonim Şirketi, one of the important representatives of the feed technologies sector, started its activities in 2012 within the body of 'Unormak Milling Machinery', one of the leading milling machinery manufacturers in Turkey. Our company, which continues its activities in the production facilities in Konya Organized Industrial Zone, follows technological innovations by participating in all fairs held in domestic and foreign countries related to the sector in order to provide more innovative and higher quality service to its customers. Thus, a fast solution can be produced for customer needs by applying a sustainable industrial policy.
