About Us

We began our business operations in 1955 by selling figs at street stalls, and today we continue to produce and sell more than 40 different products. Our business, which continued with the retail sale of nuts and dairy products near the Aziziye Mosque until 1975, took on a new dimension in 1975 with the production and wholesale sale of nuts in the Wholesale Market. In the early years, we produced sunflower seeds and chickpeas, and as the years progressed, we expanded into the production of other nut varieties. Today, in our 9,000 m² facility—4,200 m² of which is enclosed—we continue our operations with a daily production capacity of 20 tons, utilizing state-of-the-art sorting, roasting, and packaging systems to produce over 40 products and more than 200 varieties. At our company, where 35 years of experience has merged with
