Hakkımızda

Since 1982To provide the highest quality service and structureSince 1982To provide the highest quality service and structureOperating since 1982, Özdemsan is one of Turkey's leading manufacturers in the production of belt equipment products. Exporting to nearly 40 countries, Özdemsan continues to grow by increasing its production performance by keeping skilled personnel employment and technology investment at a high level. Thanks to the integration of its human-oriented investment with technology, it increases its product range and develops competitive and surgeon-friendly products with economical prices. Özdemsan invests heavily in special machinery and equipment in order to increase its production capacity and deliver on time.
