About Us

In 1992, Pek Perçin Cıvata San. ve Tic. Ltd. Şti. continued to serve with the title. In 2006, we have put into operation our factory with a closed area of 1100 m² in Konya Organized Industrial Zone, with a closed area of 1100 m² in 2006, in order to make higher quality products and to produce more with the experience and love of service. In our machine park, we launch our products with 4 bolts, 3 strokes, double stroke machines, bolt and imbus production, perforated rivet machines, our rivets of various diameters and lengths, our high tonnage friction presses and our hot bolts with Pek Bolt and Balvi Vida brands. In our production line, where we see an increase in our tonnage every day, 150 - 200 tons of products are produced in various quality and standards. These products are complemented by quality control and R&D processes, from
