About Us

PHASELIS OR WHAT?Let's answer right away;Today, it is located within the administrative borders of Tekirova Town of Kemer District. Phaselis city, located among pine and cedar forests in Olympos Beydağları National Park, is 16 km west of Kemer.In the historical development process, Phaselis has existed as a port city and trade center since its formation. It is known that maritime trade is at the highest level and almost all of the income source of the city is provided from this trade. The fact that it has three harbors, its location and rich forest areas ensured this. Today, it is an ancient city used for tourism. The fact that it has a natural wonder and a clear sea makes Phaselis attractive. It also invites us to the meeting of history and nature among the pine trees under the Mediterranean sun.
